

## HT-D38

### Desktop Microphone

The HT-D38 is an uniquely shaped and high-quality condenser microphone designed for use in lecture halls, houses of worship and paging applications. This HT-D38 has option for its operation between battery or phantom power. It adopts high quality condenser cartridge to make sure that the microphone has high sensitivity and good frequency response. With the HTDZ unique technology, the microphone has its own ability to anti-electromagnetic interference from mobile and other electronic equipment perfectly.
