

**HT-G338**

220 Watt

The HTDZ HT-G338 is a slim array speaker designed for main system applications. Featuring a 3" three-way speaker design powered by HTDZ Mixer, it delivers incredible volume in a lightweight and compact form factor. The sound source speaker elements are vertically arranged close to each other, and form a continuous linear sound source, achieving uniform sound pressure with less attenuation due to distance. The HT-G338 speaker is of a special design that is ideal for long-distance sound transmission applications.
